UNIFORM POLICY

Athletes will be issued a uniform and will return the uniform top at the end of the season. If the uniform is lost or damaged, the athlete will be responsible for purchasing another uniform.

RACING REQUIREMENTS

As a coaching staff, our goal is to give athletes as many opportunities to race as possible. At times this can be difficult as different meets have different entry limitations. Some races we go to allow unlimited entries per event, some allow 10 entries per event and others allow only 2-3 entries per event (this is mainly the Varsity meets). When assigning athletes to race at different meets, coaches will consider first those athletes who show up to practice with a positive attitude and give their best effort.

Athletes can only compete up to 10 times in a season excluding (Region, Sectionals, & State). Athletes are allowed to compete in any 4 events per meet.

REGION/STATE/SECTIONAL

In Track and Field, an athlete must qualify individually to compete at the State meet. To do this an athlete must finish in the top 4 in their event at the Region meet which qualifies them for the Sectional Meet. At the Sectional meet, an athlete must finish in the top 8 in their event to qualify for the State meet. The selection of the athletes that will compete at the Region meet is made by the coaching staff. The criteria listed below is what the coaches will consider when determining the Region meet athletes:

1. Position on Team – each team is allowed 3 entries per event at the Region meet. In most cases, the top 3 athletes on the team will be entered in the various events. This might not always be the case, depending on meet schedule for the different events and the strength of performance for an athlete in an event. Athletes who might be in the top 3 on the team for their event might not be entered at region to focus their energy on another event in which they have a better chance to advance.
2. Reliability/Contribution to the Team – an athlete who is top 3 in their event but is constantly injured/missing practices or races or an athlete who has not proven themselves dedicated to the team might not be chosen for the Region meet. Due to the importance of the Region meet, the coaches need athletes they can depend on. As a program we want to put the best athletes on the line at the Region Meet. We also want to put those athletes on the line who have the team’s best interest in mind. In the event that there are athletes who have similar times and finishes then the coaching staff will look at the attendance, attitude, and participation of those athletes to help make a decision.

LETTERING CRITERIA

There are a few ways that an athlete can receive a varsity letter for track and field:

1. On the Varsity team at the Region 3-AAAAAAA Meet or scores a point in a Varsity Meet
2. Achieving the Varsity Lettering Standard for one of the events (lettering standards listed below.
3. Coaches discretion: as a coaching staff, we can award a Varsity letter to an athlete who does not meet the above requirements but who we feel is deserving of a Varsity letter.

*Attendance at practice is mandatory. Athletes missing 15 or more practices will not be guaranteed a Varsity letter.

*All Letters are earned. Coaching Staff reserve the right to hold a letter from any athlete for any reason, even if they hit one or more of these standards

HYDRATION

Hydration* Hydrating is important to athletes for many reasons. Hydrating aids in bodily process before, during and after a sporting activity. When the body fails to get enough fluids this is called dehydration. Dehydration hurts performance in many ways. It can increase the risk of injury, lack of performance, and increase the risk of heat illness. When athletes are dehydrated the flow of blood to the skin is reduced, this limits the ability for the body to cool itself. When athletes exercise, their body can generate up to 20 more times of heat than when resting. Our bodies use sweating as a form to regulate body temperature during a sporting activity. As body temperatures rise warning signs of heat illness will occur in an athlete that is dehydrated. Some symptoms of dehydration are flushed skin, dizziness, nausea or vomiting, and as simple as thirst, dry lips and mouth, and or dark urine. Some helpful hints for hydration are drinking 16 ounces two hours before exercise. Drink 4-8 ounces ten minutes before the start of exercises. Drink 4-8 ounces every twenty minutes during exercise. After exercise drink 16 ounces of water for every pound of body weight lost. And lastly throughout your day drink 32 ounces of water for every 1,000 calories expended daily.

Preventing dehydration is important for athletes but the body doesn't do the best job of letting one know when it's time to rehydrate. When athletes sweat during exercise, they lose water from their blood making the blood thicker while raising sodium levels. When this occurs the body feels thirsty, the only problem is that by this time the skin has already secreted 1.5 liters of water (3/4 of a 2liter soda bottle) thus why it is so important to drink even when you're not thirsty. Keeping track of the color of your urine can be an easy and helpful tool when staying hydrated. The color chart can give you a better picture of properly hydrated urine color. If your urine is colors 1, 2, 3 the athlete in question is most likely well hydrated. If the color of the urine falls between 4,5,6 the athlete should drink water as soon as possible because beginning sign of dehydration are. And finally, if the urine color is 7 or darker the athlete should begin to drink as they are dehydrated.]

HILLGROVE
2024
TRACK & FIELD
CORPORATE
SPONSORSHIP

Hillgrove Track & Field
4165 Luther Ward Rd.
Powder Springs, GA 30127

Dear Potential Sponsor,

We are currently seeking Corporate Sponsors for the 2024 Track and Field Season. Throughout the history of Hillgrove HS, coaches have established Hillgrove Track and Field as one of the premier teams not only in Cobb County but also in the State of Georgia. Our program gives our student athletes the opportunity to learn valuable lessons that will help them succeed not only in our sport but also later on in life. We have the opportunity to shape the future of our community in a positive manner and we would love for you to be a part of that process. We are coming off 2023 season that saw a top 10 team finish for the girls at the State meet. We are returning a female athlete who was the State Champion in the 100 & 200 Meter Dash. Our girls 4x100 Meter Relay produced the 8th fastest time ever in the state of Georgia for the event. On the boys side, they produced forty top 10 all-time performances in the history of Hillgrove High School Track & Field. In addition, the boys broke two school records. The team is continuing to produce efforts to continue this process. This season is shaping up to be an exciting season! We are a team that is becoming established in the track and field community, and we want you to be a part of our growing success!

The accomplishments we have achieved at Hillgrove High school as players, coaches and a program take vision, commitment, and resources. The large majority of our program's funding continues to be generated from the players, their parents and the support and generosity within the Hawks community. This supporting cast is a critical part of the success of our program. We are trying to stay on the cutting edge of training with the use of new technology for training and recovery, so our athletes are best prepared for success in competition. All the funds we raise go directly back to our program to help us pay for our planned travel costs, awards for our athletes, entry fees for scheduled races and much needed training equipment. Your donation will help sustain the tradition of excellence and continue to build on our past successes as we look to move our program to be one of the best in the state of Georgia.

Along with our staff, and on behalf of the entire Hillgrove Track and Field family, we would like to personally thank you for your time and consideration and invite you to be a sponsor for the 2024 season. Please see the attached sheet that contains information on our different sponsorship levels. We are an approved 501 (c) (3) organization so any donation you make could qualify as a tax write off. I am confident that you will see that you will be receiving a tremendous return on your investment beyond that of the impact that you would have on helping to shape the next generation. If your company is ready to partner with us, please fill out the Corporate Sponsorship Form (the last page of this packet) and send to address included. If you have any further questions, please do not hesitate to contact us. Thank you again for your time and consideration.

Sincerely,
